

Brian D. Udell MD FAAP  
Director  
Child Development Center of America  
January 21, 2019

To Whom This May Concern:

I am a Board Certified Pediatrician with 40 years of experience, now practicing Developmental Pediatrics in Davie, FL. Our practice focuses on Special Needs Pediatrics, mainly seeing children on the Autism Spectrum.

We have been working with Mobile Phlebotomy Services since April of 2013. I cannot say enough about this service and how it has helped my patients. Heather and her team are experienced, organized and most of all compassionate when scheduling and performing phlebotomy services in our patient's homes or at our office. They are dependable and always go the extra mile to help my most difficult patients feel comfortable.

Mobile Phlebotomy Services has been a great addition to our practice. I would highly recommend them.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Udell", written over a horizontal line.
